- Mobile Apps Developer
- PHP
- C#
- JAVA
- Python
- Android
- Laravel
- JavaScript
- jQuery
- Api's
- UI/UX

WORK EXPERIENCE

PHP Full Stack Developer

Anomoz Softwares | Karachi, Pakistan

As a Full Stack PHP Developer at Anomoz Softwares, I played a pivotal role in the end-to-end development of dynamic web applications. Leveraging PHP for server-side scripting and utilizing front-end technologies like HTML, CSS, and JavaScript, I ensured the creation of responsive and user-friendly interfaces. Working within the Laravel framework, I integrated third-party APIs to extend application functionality and collaborated seamlessly with cross-functional teams. Conducting rigorous testing and debugging, I successfully identified and resolved software defects, optimizing overall system efficiency. Through continuous learning and staying abreast of industry trends, I contributed to the successful delivery of projects, receiving positive client feedback for meeting both time and budget constraints.

And Other Part-Time I'm Worked As A Freelancer.
